SCRAPERS & GRINDERS

SALES & RENTALS
FLOOR SCRAPERS & GRINDERS

PROVIDING SOLUTIONS FOR YOUR EQUIPMENT NEEDS

With a massive range of power tools
and accessories, to help get the
jobs done quickly and effectively

ABOUT US

Superior Scrapers & Grinders was started on a foundation of experience. With over 6 years of hands on experience operating the different scrapers and grinders running Arrowhead Construction and another 6 + years selling and renting the equipment, we learned through trial and error, facing every disaster you can think of to find exactly what works & what doesn't. What breaks down and most importantly, what it takes to be successful on your projects.

We narrowed the options to only the absolute best out there to ensure you have the support and results needed to take your business to the next level.

Our goal is to learn about your company, the jobs you do and want to grow into, then help you get the equipment to tackle those.

RIDE ON FLOOR SCRAPERS

Designed for large area surface removal the Lightning is still extremely mobile, and will make short work of tough floor removal jobs. At 2085 lbs it can take up a wide variety of thick coatings, floor coverings including carpet, VCT, ceramic tile and hardwood as well as waterproofing membranes.

KEY FEATURES

- Fast Speeds
- Single Joystick Controls
- Floatingblade design

THE LIGHTNING SPECIFICATION

Dimensions	51.5 X 26 X 51 in
Machine Weight	2085 lbs
Speed	330 Feet/Minute
Run Time	6 hours per LP tank
Removable Weight	670 lbs
Fuel	Propane
Manufacturer	OEM
Motor	25HP Propane

Built specifically to handle the toughest jobs while allowing you to work in areas a Propane powered scraper is not allowed and not comprimizing the performance. Travelling at 200+ feet per min and over 2600lbs your work day just got easier. The most efficient and versatile battery scraper Loaded with AGM batteries, 110v charger & more removable weights than any other scraper, this is quickly becoming the choice of Professional contractors Nationwide.

KEY FEATURES

- Double caster wheels
- Locking blade bar
- Tool box
- Single joystick
- Easy maintenance

THE STORM SPECIFICATION

Dimensions	52 x 25 x 57 in
Machine Weight	2620 lbs
Speed	Up to 250 Feet/Minute
Run Time	6-10 Hours
Removable Weight	550 lbs
Motor	4 HP 110v Charger

The Hurricane is a quick and agile, high-productivity, ride-on floor scraper designed for large area surface removal. The Hurricane significantly reduces the amount of time and effort required to remove a wide variety of thick coatings, floor coverings, and waterproofing membranes.

KEY FEATURES

- Fast Speeds
- Single Joystick Controls
- Floatingblade design

THE HURRICANE SPECIFICATION	
Dimensions	51.5 X 25 x 57 in
Total weight	2,800 lbs
Maximum speed	440 feet/minute
Run Time	6-10 Hours
Removable Weight	1500 lbs
Engine	25 HP Kohler Propane EFI
Machine without weights	1,300 lbs

The Twister is the unit for high-productivity, low emissions, and reliability. It was designed for large area surface removal while still able to drive through a standard size doorway. The Twister significantly reduces the amount of time and effort required to remove a wide variety of thick floor coatings, coverings and waterproofing membranes

KEY FEATURES

- Double caster wheels
- Single joystick
- Easy maintenance

THE TWISTER SPECIFICATION	
Dimensions	73 X 26 x 63 in
Total weight:	4,200 lbs
Maximum speed:	500 feet/minute
Machine without weights:	2,182 lbs
Removable weight:	2018 lbs
Engine	Hyundai 1.6L EFI

CONCRETE FLOOR GRINDERS

The Mammoth 800 is a 32" grinder available in either a 3 or 4 head version. Like its smaller counterparts it is 100% gear driven. It also includes a 8 gallon water tank for grinding wet or just keeping the tooling (metal bond diamonds) temperature down. Includes a magnetic, high powered LED light for working in corners or dark areas that can be moved anywhere on the grinder, a USB connector to charge your accessories like cell phone to always be available to support your clients.

Not so much a "baby" this 27" version of the Mammoth comes packing a punch. Running strong with a 10hp motor and ample weight for aggressive cutting and grinding at almost 750 lbs this grinder can take on jobs from 1,000 sq ft up to 10,000+ sq ft with no problem.

100% Gear driven, fully enclosed assembly eliminates belt and tensioner issues found on other grinders.

THE MAMMOTH 800 DESCRIPTION

Pad/brush diameter	32" Diameter
Plates	3 or 4 head versions available
Motor	15/20 Horsepower
Amperage	20-30 Amps
Voltage	220/380/460v
Machine Weight	1102 lbs.
Solution tank capacity	8 Gallons
Width	32"
Height	47"

THE BABY MAMMOTH DESCRIPTION

Pad/brush diameter	27" Sweep Width
Plates	3 Head (8") Diameter
Motor	RPM:300-1980 Inverter: 10HP Motor
Amperage	15.5
Voltage	220 Single Phase
Machine Weight	748 lbs.
Length	54"
Width	27"
Height	48"

If you are looking for a lightweight and convenient grinding machine the Peanut Mammoth exceeds expectations. Powerful 22", single phase 220v double gear-driven planetary grinding machine. Featuring three plates, the machine speed can reach 1800 rpm. The aluminum alloy gearbox provides amazing stability and reliability. Can easily remove thin-set and polish.

The Genie Concrete Grinder is gear driven machine from the the top of the shaft to the 2 grinding heads. From the motor to the shaft you have a set of 2 V belts. This makes for easy replacement of the belts and eliminates the need for lengthy lower belt changes.

You get a 9 gallon water tank for grinding wet and or adding an additional 50lbs of head weight to an already impressive weight of 440bs. The kickstand on the back of the handle has eliminated damage to the hand grips and components on the handle when changing the tooling.

THE PEANUT MAMMOTH DESCRIPTION	
Pad/brush diameter	22" Diameter
Plates	3 Head (9") Diameter
Motor	RPM: 300-1600 Inverter: 7.5HP
Amperage	11 Amps
Voltage	220 Single Phase
Machine Weight	551 lbs.
Solution tank capacity	53 Gallons
Width	22"
Height	47"
Length	30"

THE ULTRA GENIE DESCRIPTION	
Pad/brush diameter	27" Sweep Width
Plates	2 Head
Motor	10 Horsepower
Amperage	30 amps
Voltage	220v Single Phase
Machine Weight	440 lbs.
Width	27"
Height	47"

VACUUM / DUST COLLECTORS W/ HEPA FILTER

The V-2S is a small power industrial vacuum cleaner that is specifically designed for superfine dust extraction following the floor grinding and polishing process. The V-2S industrial vacuum cleaners have a two-stage filtration system that provides a forceful suction creating a stable machine with flexible mobility. With a special turbine system that can work continuously for 24 hours.

The V-2S is equipped with continuously disposing Longopacs that are designed to simplify the process of collecting and disposing of dust. This machine complies with OSHA's surface preparation, grinding and polishing HEPA vacuum regulations.

The V-3S is a heavy duty industrial vacuum cleaner specifically for superfine dust extraction following the floor grinding and polishing process. This industrial vacuum not only has the ability to run continuously for 24 hours, the V-3S is built with a forceful suction, creating a stable machine with flexible mobility. With a two-stage filtration system, the V-3S provides a pre-filter and a 10-bag system in the first stage and a HEPA filter in the last stage.

This design increases the filtering area to improve the reverse blowing system. This machine complies with OSHA's surface preparation, grinding and polishing HEPA vacuum regulations.

The V-75E is an economical vacuum cleaner specifically designed for superfine dust extraction following the floor grinding and polishing process. The industrial vacuum continuously disposes using a Longopac; However, the V-75E has a smoother structure making it more flexible and economical.

A two-stage filtration system provides a star-shaped polyester filter bag that has a minimum efficiency of 99% dust extraction in the first stage and a "TORAY" cartridge filter, ensuring the filter efficiency is up to 99% of dust in the final stage. This machine complies with OSHA's surface preparation, grinding and polishing HEPA vacuum regulations.

Ermator and Husqvarna vacuums also available by request

HURRICANE BLADE BAR

DESCRIPTION

The Genie Magic Walk Behind Auto Floor Scrubber. Our easy to use, powerful battery operated floor scrubber is designed for most cleaning applications and facility sizes and is primarily used for floor surface cleaning. Use on carpets and wood floors with its advanced flexibility to change the hard brush to soft brushes or scouring pads.

One of the obstacles of being a small business owner is that equipment breaks down or becomes outdated. Our financing options allows the risks and stresses with purchasing equipment to be eased and helps keep your company competitive. As a bonus, you can manage cash flow and protect lines of credit for working capital. Take me home for \$83.50 a month

Specifications:

- Voltage: 24V DC
- Width Sweep: 20"
- Brush diameter: 20"
- Brush speed: 150 rpm
- Vac suction: 100 mbar
- Solution tank: 10.5 gal
- Recovery tank: 12 gal
- Batteries: 2
- Weight: 155 lb
- Length: 42 in
- Width: 20 in
- Height: 38 in
- Noise level: 68dB
- Charging time: 8 hrs
- Continuous work time: 3-3.5 hrs
- Includes: 20" Bristle scrub brush
- 20" Pad holder
- Battery charger

PRESTO PRO LP
FLOOR BURNISHER

DESCRIPTION

The Genie Presto Pro Floor Burnisher is perfect for achieving high gloss shine on concrete and other flooring surfaces using black or diamond impregnated pads. The weighted Genie Presto Pro increases floor temperature during burnishing to raise the gloss level and the passive dust collector filters dust through a shroud. This dust collection system also comes equipped with a 2-inch external vacuum port for heavier dust collection.

One of the obstacles of being a small business owner is that equipment breaks down or becomes outdated. Our financing options allows the risks and stresses with purchasing equipment to be eased and helps keep your company competitive.

Specifications:

- Weighted metal pad driver
- Weighted metal pad driver
- Infrared thermometer
- Dust collection system
- Engine kill switch
- Exceeds EPA & CARB standards
- 27-inch deck with a Kawasaki engine with a pad driver.
- Production: 33,000 ft² /
- 3,065 m² per hour
- Total Weight: 350 pounds / 159 kg
- Engine Speed: 3,600 rpm maximum
- Pad Speed: 1,800 RPM
- Pad Size: 27 inches / 0.7 m

GENIE PRESTO
ELECTRIC WALK BEHIND SCRUBBER

DESCRIPTION

The GENIE PRESTO High Speed Burnishing / Polishing Machine is perfect for locations that does not allow propane fuels. Perfect for daily cleaning maintenance, burnishing projects, and polishing. The Genie Presto has a variable speed switch with a high RPM, larger working path, and more powerful motor than similar machines in the market. This powerful floor burnisher is not only more efficient, it reduces both labor cost and time.

One of the obstacles of being a small business owner is that equipment breaks down or becomes outdated. Our financing options allows the risks and stresses with purchasing equipment to be eased and helps keep your company competitive.

Specifications:

- Adjustable handle, folds for easy storage
- Easy roll wheels
- Bottom height adjustment features
- HD body for durability and precision
- Power source 200v Single Phase
- Motor 10 Hp
- Current 28 Amp
- Motor RPM
- Working path 27 Inch
- Weight 419 Lbs

REVIEWS FROM OUR CUSTOMERS

"We purchased a new scraper through Nick at Superior about a month ago. As a small contractor, this was a big purchase for us. Nick/Superior made sure we purchased the BEST scraper for our needs and we couldn't be happier.

After our purchase, Superior Scrapers has continued their excellent customer service, this is very important. We are happy to highly recommend them to anyone"

Jesse Boswell, Floor Dozers

"Nick is the best guy to work with. When we needed a ride-on floor removal machine, we called Nick. When we needed a concrete grinder machine, we called Nick. When we need blades, pads or advice, we call Nick. You buy something once and you'll work with him for life. Ballard Enterprises will always work with Nick!!!"

Sean Ricks, Ballard Enterprises

"Truly amazed with all phases of service. All machines are in excellent condition! Nick is very professional and genuinely loves what he does! I look forward to doing more and more business with Nick in the future! Thank you for your availability, time and support."

Manny Ruiz, Artisan Barrel Concrete
